

STEM

Year 4 took part in a Lego Workshop with Nick from Junior STEM. Building and programming their own creations. Giving children an insight into the skills of engineers and different jobs that would potentially use these skills within a fun and engaging workshop.

Welcome to the Cloverlea Primary Curriculum Snapshot - a monthly page to let our parents know what is happening at the school.

DON'T FORGET!!!

With the success of our dodgeball curriculum, club and school team we have been shortlisted for the British Dodgeball Primary Award 2023. Please vote for Cloverlea using the following link!

English

The whole school have been completing various work in our **'One Book'** project like the nursery class here to the right.

We have been taking part in our whole school 'one book' project and have been reading Quest by Aaron Becker. We have each drawn something that we would like to become real in our favourite colour - just like the characters in the story. Lots of us gave great verbal explanations about why they have drawn what they've drawn and why they would like their drawing to become real and alive.

P.E.

Years 5 and 6 have enjoyed sessions with Sale Sharks learning new skills for tag rugby. Great to be having some fun in the sunshine! Year 2 also enjoyed taking part in the football tournament, which was held for year groups across the school!

School Councillors

Our school councillors had an enjoyable ECO session with Lancashire Cricket Foundation. They've returned brimming with ideas for improving our environment.

Year 4 have also been highlighting texts to find clues about main characters and how this is done, via description, dialogue or actions.
